The Chinese Government having (through the Hon. Anson Burlingame) conceded to this Company the privilege of connecting the great seaports of the Empire by submarine electric telegraph cable, we propose commencing operations in China, and laying down a line of nine hundred miles at once, between the following ports, viz:

	Population.
Canton	1,000,000
Macoa	60,000
Hong-Kong	250,000
Swatow	200,000
Amoy	250,000
Foo-Chow	1,250,000
Wan-Chu	300,000
Ningpo	400,000
Hang Chean	1,200,000
Shanghai	1,000,000
Total	5,910,000

These ports have a foreign commerce of $900,000,000, and an enormous domestic trade, besides which we have the immense internal commerce of the Empire, radiating from these points, through its canals and navigable rivers.

The cable being laid, this company proposes erecting land lines, and establishing a speedy and trustworthy means of communication, which must command there, as everywhere else, the communications of the Government, of business, and of social life especially in China. She has no postal system, and her only means now of communicating information is by couriers on land, and by steamers on water. [illegible] large country, in the main densely peopled; but few yet realize that she contains more than a third of the human race. The latest returns made to her central authorities for taxing purposes by the local magistrate make her population *Four hundred and Fourteen millions*, and this is more likely to be under than over the actual aggregate. Nearly all of these, who are over ten years old, not only can but do read and write. Her civilization is peculiar, but her literature is as extensive as that of Europe. China is a land of teachers and traders; and the latter are exceedingly quick to avail themselves of every proffered facility for procuring early information. It is observed in California that the Chinese make great use of the telegraph, though it there transmits messages in English alone. To-day great numbers of fleet steamers are owned by Chinese merchants, and used by them exclusively for the transmission of early intelligence. If the telegraph we propose connecting all their great seaports, were now in existence, it is believed that its business would pay the cost within the first two years of its successful operation, and would steadily increase thereafter.

No enterprise commends itself as in a greater degree remunerative to capitalists, and to our whole people. It is of vast national importance commercially, politically and evangelically.

☞ The stock of this Company has been unqualifiedly recommended to capitalists and business men, as a desirable investment by editorial articles in the New York *Herald, Tribune, World, Times, Post, Express, Independent*, and in the Philadelphia *North American, Press, Ledger, Inquirer, Age, Bulletin* and *Telegraph*.

Shares of this company, to a limited number, may be obtained at $50 each, $10 payable down, $15 on the 1st of November, and $25 payable in monthly instalments of $2.50 each, commencing December 1, 1868, on application to

HAVE HEARD OF

HOOFLAND'S GERMAN BITTERS,

AND

HOOFLAND'S GERMAN TONIC.

Prepared by Dr. C. M. Jackson, Philadelphia. Their introduction into this country from Germany occurred in

1825.

THEY CURED YOUR

FATHERS AND MOTHERS,

And will cure you and your children. They are entirely different from the many preparations now in the country called Bitters or Tonics. They are no tavern preparation, or any thing like one; but good, honest, reliable medicines. They are

The greatest known remedies for

Liver Complaint,
DYSPEPSIA,
Nervous Debility,
JAUNDICE,
Diseases of the Kidneys,
ERUPTIONS OF THE SKIN,

and all Diseases arising from a Disordered Liver, stomach, or

IMPURITY OF THE BLOOD.

Constipation, Flatulence, Inward Piles, Fullness of Blood to the Head, Acidity of the Stomach, Nausea, Heartburn, Disgust for Food, Fullness or Weight in the Stomach, Sour Eructations, Sinking or Fluttering at the Pit of the Stomach, Swimming of the Head, Hurried or Difficult Breathing, Fluttering at the Heart, Choking or Suffocating Sensations when in a Lying Posture, Dimness of Vision, Dots or Webs before the sight, Dull Pain in the Head, Deficiency of Perspiration, Yellowness of the Skin and Eyes, Pain in the Side, Back, Chest, Limbs, etc., Sudden Flushes of Heat, Burning in the Flesh, Constant Imaginings of Evil and Great Depression of Spirits.

All these indicate diseases of the Liver or Digestive Organs, combined with impure blood.

HOOFLAND'S GERMAN BITTERS

is entirely vegetable and contains no liquor. It is a compound of Fluid Extracts. The Roots, Herbs, and Barks from which these extracts are made, are gathered in Germany. All the medicinal virtueus are extracted from them by a scientific Chemist. These extracts are then forwarded to this country to be used expressly for the manufacture of these Bitters. There is no alcoholic substance of any kind used in compounding the Bitters, hence it is the only Bitters that can be used in cases where alcoholic stimulants are not advisable.

HOOFLAND'S GERMAN TONIC

is a combination of all the ingredients of the Bitters, with PURE Santa Cruz Rum, Orange, etc. It is used for the same diseases as the Bitters, in case where some pure alcoholic stimulus is required. You will bear in mind that these remedies are entirely different from any others advertised for the cure of the diseases named, these being scientific preparations of medicinal extracts, while the others are mere decoctions of rum in some form. The TONIC is decidedly one of the most pleasant and agreeable remedies ever offered to the public. Its taste is exquisite. It is a pleasure to take it, while its life-giving, exhilarating, and medicinal qualities have caused it to be known as the greatest of all tonics.

DEBILITY.

There is no medicine equal to Hoofland's German Bitters or Tonic in cases of Debility. They impart a tone and vigor to the whole system, strengthen the appetite, cause an enjoyment of the food, enable the stomach to digest it, purify the blood, give a good, sound, healthy complexion, eradicate the yellow tinge from the eye, impart a bloom to the cheeks, and change the patient from a short-breathed, emaciated, weak, and nervous invalid, to a full-faced, stout, and vigorous person.

Weak and Delicate Children are made strong by using the Bitters or Tonic. In fact, they are Family Medicines. They can be administered with perfect safety to a child three months old, the most delicate female, or a man of ninety.

These remedies are the best

Blood Purifiers

ever known and will cure all diseases resulting from bad blood. Keep your blood pure; keep your Liver in order, keep your digestive organs in a sound, healthy condition, by the use of these remedies, and no diseases will ever assail you. The best men in the country recommend them. If years of honest reputation go for anything, you must try these preparations.

FROM HON. GEO. W. WOODWARD,

Chief Justice of the Supreme Court of Pennsylvania.

PHILADELPHIA, March 16, 1867.

I find that "Hoofland's German Bitters" is not an intoxicating beverage, but is a good tonic, useful in disorders of the digestive organs, and of great benefit in cases of debility and want of nervous action in the system.

Yours Truly,
GEO. W. WOODWARD.

FROM HON. JAMES THOMPSON.

Judge of the Supreme Court of Pennsylvania.

PHILADELPHIA, April 28, 1866.

I consider "Hoofland's German Bitters" a valuable medicine in case of attacks of Indigestion or Dyspepsia. I can certify this from my experience of it. Yours, with respect,
JAMES THOMPSON.

FROM REV. JOSEPH H. KENNARD, D. D.,

Pastor of the Tenth Baptist Church, Philadelphia.

DR. JACKSON—DEAR SIR:—I have been frequently requested to connect my name with recommendations of different kinds of medicines, but regarding the practice as out of my appropriate sphere, I have in all cases declined, but with a clear proof in various instances, and particularly in my own family, of the usefulness of Dr. Hoofland's German Bitters, I depart for once from my usual course, to express my full conviction that for general debility of the system, and especially for Liver Complaint, it is a safe and valuable preparation. In some cases it may fail; but usually, I doubt not, it will be very beneficial to those who suffer from the above causes. Yours, very respectfully,

J. H. KENNARD,
Eighth, below Coates Street.

Suffrage Constitutional Amendment.

SPEECH OF

HON. GEO. W. WOODWARD,

OF PENNSYLVANIA,

In the House of Representatives,

February 20, 1869.

On the joint resolution (S. R. No. 8) proposing an amendment to the Constitution of the United States

Mr. Woodward. I wish to say a few words to-day in behalf of the people of Pennsylvania. The constitution of the State of Pennsylvania of 1790 was silent on the subject of negro suffrage. A diversity of opinion and practice to a limited extent grew up under that constitution. In some sporadic instances colored men were permitted to vote; but at length the question came before the highest judicial tribunal of the State, and it was decided that the constitution of 1790 rightly understood, never permitted negro suffrage.

That decision was based upon this ground, that the negro race never had become a part of the social compact of this country, a conclusion that was deduced from the history of the negro race, and their introduction into this country as slaves. It resulted very logically out of the great principle of the Declaration of Independence, that all just Governments should be founded in the consent of the governed. A subject, inferior, ignorant, and idolatrous race, introduced into a country against their will to be slaves, would be greatly wronged in being treated as having consented to the government of that country. The African race has never consented to the government of this country. They are exotic, they are alien, they are strangers to the Commonwealth. They were brought here in violation of the laws of nature; they were thrust upon us without their consent and without ours; and according to Pennsylvania law they never became parties to the social compact upon which all our political institutions are founded.

The people of Pennnsylvania penetrated with these truths, which their judiciary had thus recognized, amended in 1837 their constitution of 1790, and in defining the qualifications of electors inserted the word "white" before the word "freeman." This was not only agreed to in their constitutional convention after great deliberation, but that amendment was submitted, with other amendments, to a vote of the people of Pennsylvania. And, sir, it is a part of the history of the times that those who were opposed to the reform of the constitution were especially opposed to this amendment, because of the popularity which it gave to the other amendments. I point the House to the fact that the people of Pennsylvania, thus through their judicial tribunals and by their own popular elections, decided as solemnly as it is possible for freemen to decide that the negro race was no party to the social compact and should not be admitted to the suffrage.

Now, Mr. Speaker, that decree has never been reversed. On the contrary, all political parties have recognized it and submitted to it. The republican party, as often as they have been charged with intending to take out of the foundations of our State government that corner-stone, have asserted that they were slandered; that they intended nothing of the sort. They have pointed to the Chicago platform in confirmation of their assertions. In consequence of this disavowal they enjoyed in the last election, and in all the late elections in our State, a very large Welsh vote, which, I tell them, they will lose from the day that they force negro suffrage upon the people. They have enjoyed that Welsh vote by reason of their persistent and apparently consistent denial that they were for negro suffrage. The Welsh do not like the Irish; there is a lack of congeniality between the two classes on account of religion and other causes. The republican party, while they cannot carry the great body of the Irish population, can carry a large proportion of the Welsh so long as, and only so long as, they can persuade that people they are honest in their professions against negro suffrage.

The effect of the proposition now before us is to change the fundamental law of Pennsylvania, to reverse the historic and traditional policy of the State, to introduce into the politics of that great Commonwealth this alien, foreign, unnatural element, which down to the present time the republican party have told the people never was to be a part of their policy. I ask of the gentlemen from Massachusetts and of this House that before this change of policy be adopted the whole people of Pennsylvania be allowed to pass upon the question. What answer does the gentlemen give to this request? He has answered, sir, in your hearing, that he cannot allow the offering of an amendment looking to that end because the Constitution forbids him. I standing here asking the gentleman from Massachusetts to do an unconstitutional thing, when I beg him to submit his amendment to a vote of the people! Well, sir, if the gentleman from Massachusetts had never done any unconstitutional thing it would undoubtedly be a very great sin in me to tempt him into transgression. But, Mr. Speaker, let me tell the gentleman from Massachusetts that I asked him to violate no constitutional provision when I asked him to submit this amendment to the people of Pennsylvania. And, sir, within five minutes after he refused to entertain my proposition, he stood in his place and declared, as the report in the *Globe* will show to-morrow, that this constitutional amendment was to be submitted to the people of this country. I deny that.

Its submission to the people, in the fair sense of the term, is exactly what I demand. The present legislature of Pennsylvania was elected last October. It was elected while the republicans were complaining that the democrats were slandering them in charging them with intending to introduce negro suffrage. That charge was declared to be a defamation upon the fair fame of the rspublican party. And yet it is to this present legislature the gentleman insists upon submitting the amendment. A legislature not only not elected to consider any such subject, but elected in the midst of profuse denials that such a subject was to come before them. On this question they do not represent the people- were never chosen to represent them. If the gentleman will say that this legislature was elected to consider this or any similar amendment I will give up the discussion. Nay, I will give him anything I have to give if he will hazard that statement. But he will not, and the fact must remain unchallenged that you are about to call upon a body of representatives to ratify your amendment who do not represent the people upon this question. The ratification might just as well be submitted to any other body of men—it might just as well not be submitted at all.

What I propose is, that the amendment shall be submitted to a legislature, the most popular branch of which shall be chosen after this date, with this question before the eyes of the people.

The gentleman from Massachusetts says that is unconstitutional. Why? Because we cannot select the legislature to which to submit our amendment. I deny his premises. I say that the Constitution devolves upon us the duty of selecting the representative body to which we shall submit amendments. When I read the words of the Constitution you will see I am right. It is as follows:

"The Congress, whenever two-thirds of both Houses shall deem it necessary, shall propose amendments to this Constitution, or on application of the legislatures of two-thirds of the several States shall call a convention for proposing amendments, which, in either case shall be valid to all intents and purposes as part of this Constitution when ratified by the legislatures of three-fourths of the several States, or by conventions in three-fourths thereof, as the one or the other mode of ratification may be proposed by Congress."

There, sir, is the constitutional devolution of the duty to exercise our discretion as between the legislature and a convention to pass upon amendments. The duty involves the power. If we must choose between the legislature and a convention, we may choose a legislature or a convention elected last year, or to be elected this year. The constitution does not shut up to legislatures now in session. We may take any legislature that shall fairly and reasonably represent the people. And the ground on which I maintain that our discretion should be exercised in favor of a future instead of the existing legislature is, that the people may have a change to choose representatives with a view to this question. What right had the gentleman to say that the amendment was to be submitted to the people? It cannot be submitted to the people by being submitted to the present legislature. Nobody knows that better than the gentleman from Massachusetts.

When you have matured the form of your proposition, throw it before the legislature to be chosen next fall, and let the people understand that when we democrats charged you republicans with plotting for negro suffrage we did not slander you, but spoke only the truth. Put your amendment before the representatives of the people chosen after you have shown your hands, and if they ratify it I will agree never to raise my voice again in opposition to negro suffrage.

Having said thus much in behalf of an amendment which the gentleman from Massachusetts will not let me offer, I improve the opportunity to add a few more thoughts on the general subject of negro suffrage. I have shown the House what has been the fixed position of Pennsylvania in all time on this subject. For more than thirty years all parties have acquiesced in the rule of white suffrage. So far as I remember no public man in Pennsylvania has proposed a repeal of the rule. Even the late Mr. Stevens, whose opinions were extreme on all subjects, never brought forward any measure to alter our constitution in this regard. He would not sign the constitution, as a member of the convention, and no doubt he would have voted to his dying breath to expunge the word "white." So also, had he been spared, would he have lifted up his eloquent voice to persuade the people of Pennsylvania to change their fundamental law and give the ballot to the negro; but, sir, I persuade myself that he would not have been guilty of the insincerity and duplicity that have characterized the conduct of the republican party on this question. Having denied again and again that this issue was in last fall's election, Mr. Stevens would have said, with characteristict candor, the representatives then chosen do not necessarily represent the people on this question, let it go to the next representatives they may choose. Not only have all white men in Pennsylvania acquiesced for thirty-two years in the rule of white suffrage, but so also have the black men. I cannot recall a single instance in which any representatives of that class of our citizens have asked for a change. The colored people of Pennsylvania are a quiet, orderly, and respectable population. They enjoy full protection of all civil rights. Pennsylvania abolished slavery in 1780 by an act whose preamble is often quoted to attest her abhorrence of the institution, but whose substantive provisions show that she was no more unmindful of the rights of sister States than she was of the rights of the negro race. With us the negro is esteemed according to his individual merits. If he is industrious, sober and honest, he is respected and patronized. I have many friends among them, and cherishing only the kindest feelings for them, I am incapable of doing anything in my representative capacity to their prejudice

But, sir, the ballot will be no boon to them. The assertion that it is necessary to the protection of their civil rights is false, and, so far as Pennsylvania is concerned, is slanderous. The negro no more needs the ballot in Pennsylvania for his security than the women do for theirs. The whole history of that grand old Commonwealth shows that the weak, the ignorant, the poor, the dependent have been cared for by her with a maternal solicitude. Look at her common schools, her colleges, her asylums for the blind, the deaf and dumb, the insane; her hospitals for the sick, houses of correction for the erring, her prisons for the guilty, her laws for the poor, for married women, her system of intestacy. What can Christianity or civilization do for the lowly, the poor, and distressed that Pennsylvania has not done? Who dares to stand up and accuse her of robbing the negro of his rights? Who has the audacity to assert that the ballot is essential to the negro's safety and welfare? Founded by deeds of peace, Pennsylvania has been just to all men, whether red or black or white, and he wrongs her grievously who would undermine her institutions upon the poor and false pretense that her citizens of African descent are oppressed. It is not so.

But though this amendment if uncalled for even by the negroes of Pennsylvania, and is subversive of our fundamental law, it is supposed it will be a step toward universal suffrage which gentlemen speak of as a great and beneficent reform. I cannot help thinking, sir, that such opinions are founded in a misapprehension of the nature of suffrage. Having on a former occasion stated my views somewhat at length on this head, I will not enter again into the subject, but will content myself with saying that suffrage is not a natural right any more than any other municipal regulation which experience has shown to be expedient. It does not belong to manhood in the sense in which the rights of life and liberty do; but it is a political trust which the majority may bestow where it will best subserve the gereral welfare. It is a conventional as contradistinguished from a natural right.—Its bestowal, limitations, and exercise are regulated by the law of convenience or expendiency. The question always ought to be, will a proposed extension of suffrage promote the peace and welfare of the body-politic?—When Louis Napoleon, in the *coup d' etat* that made him a despot, decreed universality of suffrage, he demonstrated how this beneficent reform of which we hear so much could be made the instrument of an inexorable tyranny; and the same reformer who extended the basis of suffrage at Athens brought in with it the odious ostracism by which the greatest and best men of the city were banished. These and many other examples that might be cited ought to teach us that when suffrage is hastened or extended by force or fraud, instead of growing up out of the experience of the people, it is a cure and not a blessing.

Our written constitutions are the outcroppings of our national life. Until lately they were formed, not on the wild dreams of therorists, but to record the conclusions of experience. What the common mass have found to be good for themselves they have secured in their constitutions, State and Federal. Suffrage has been left to each State to bestow or withold according to its discretion. Nowhere has it been extended to women or minors or unnaturalized foreigners. Why? If a natural right, a God-given inheritance to manhood, as it is sometimes called, why should it be witheld from these classes? It is withheld from them on the same reason it is in Pennsylvania withheld from negroes—expediency. Human experience has proved that the trust could be best executed by excluding these classes, and, as in all other trusts, the selection of a trustee on the ground of expediency is no affront to those who are not selected. Everybody except those strong-minded women who, not just representatives of their sex and "most ignorant of what they are most assured," clamor for "woman's rights," would probably agree that it would be a degredation to the female sex to involve them in the responsibilities of the ballot. Universal experience attests that they are not suitable trustees; and therefore, by an almost universal consent, they are set aside. The reasons for setting aside the negro are stronger and better than those which apply to females. Between him and the white man there is an ineradicable distinction that must forever prevent that free, social intercourse on which alone popular suffrage can be based.

This distinction if it be not enflamed into hostility by bad legislation, does not prevent the two races from dwelling together harmoniously in the same community, assisting each other in the labors and the charities of life, and contributing their mutual welfare. But when you attempt to force them into social and political equality you inflame the passions of both parties and destroy the harmony of their relations. Out of these conflicts the weaker must inevitably come most damaged. It is impossible to provoke a conflict between the African and the Anglo-Saxon races in which finally the African will not be worsted. For a while you can force a sort of equality upon him by a standing army and the Freedmen's Bureau; you can oppress your own fellow countrymen in the hope that the African will keep you at the public crib, but as surely as God has made intellect superior to matter and the white man to the black, the country in which they dwell together must be governed by white men. They will not, they cannot, maintain a peaceful partnership in this matter. Call it predjudice or what you will, philosophize and moralize upon it as you may, the fact remains that one is black and the other is white, and therefore they cannot co-operate in exercising political trusts. I do not say that one may enslave the other—the superior may be compelled to respect the civil rights of the inferior race—but they cannot long be co-trustees of suffrage without riots and bloodshedding. If the time ever comes that the political destinies of this country, even for one presidential term, are controlled by negroes, it will be the darkest day that ever dawned upon that unfortunate race. May God in his mercy to them and us avert that day!

Now, sir, it is from considerations of expediency that I oppose negro suffrage. It is the good of the negro as well as of the white man that prompts my opposition. It is my desire that they may live together in peace and happiness, as always heretofore in Pennsylvania, that leads me to depreciate this amendment. And especially have we in Pennsylvania, a right to complain when, in violation of all precedent, of constitutional law of your own party platform, and of the peace of our commonwealth, you repeal our constitution without giving us a right to vote against your amendment. If such a high-handed wrong does not wake up the people of Pennsylvania to the revolutionary schemes of the republican party; if they can be beguiled by fair speeches into the support of such a measure as this; if they are ready to have the negro thrust into political partnership in contempt of their solemnly recorded will, why then, sir, a sad and sickening degeneracy has come upon my native State, and, for the first time in life I shall blush to own myself her son. Africa never so demeaned herself. The hardy savages of the mountain slopes in the interior of that continent never debased themselves to the level of the Bushmen and Hotentots of the Cape of Good Hope. No, no, sir, they could be torn from kindred and homes by the cruel slave trader, and borne away to distant lands to be slaves, but they never would or never did, voluntarily surrender to an inferior tribe of their own race, much less to an inferior race. And have we proud Americans, so lost our ancestral traditions that we can no longer be inspired even by African example?

We have seen in history the proud Roman refusing citizenship to the most illustrious aliens; we have seen Goth and Hun and Vandal trample Roman grandeur into dust; we have glowed over the struggles between the Norman and the Saxon, the Cavalier and the Rounkead, the Briton and the Scot, all of them jealous of their nationalities and ready to shed their blood in defence of what they had inherited from their ancestors. But now, in this nineteenth century, we are to be held up as the first example in the world's history of a great people surrendering political trusts to one of the lowest and feeblest races of the world's population. The Anglo-Saxon of American decent giving up the inheritance which has made him great to the African? Not to the wild African in the freedom of his native jungles, but to the enfeebled, timid, ignorant descendant of a race of slaves! And these are to be made voters and law-givers, to be our judges and representatives. Is there any profounder depth of self degredation than this? If there be I have not courage to explore it.

Every citizen owes to his family protection against business disaster or sudden death. No one, however prosperous, can avoid the risks of business.—A panic may sweep away the proudest fortune. A war in Europe may ruin houses as rich as those of the Rothschild, Hope and Baring. The Southern rebellion, for instance, threw thousands of wealthy families into desolation. Life Insurance presents to every citizen, no matter how poor, an opportunity of securing his family against want. The most ordinary prudence will enable a man, in whatever situation of life he may be, to place upon that life a policy of from one to ten thousand dollars. At forty cents a day he can secure to his family ten thousand dollars in case of his death, and in this country ten thousand dollars will be enough to support for a great many years an economical family. This advantage is given to us in many Insurance Companies, but in none more clearly than in the National Life Insurance Company, whose prospectus is published in another column. It is managed by men of national reputation, and has a capital of a million dollars. Its rates of insurance are low. Its dividends are really given in advance. There are no unnecessary restrictions about the policies—they are non-forfeiting. No citizen can well refuse the many advantages it offers.

CLEANING OUT OF FENCE ROWS.—Seize every available opportunity for grubbing up and cleaning out the wild growth that infests the fence row.—A double purpose is thus effected—it adds to the neat appearance of the farm and prevents the adjacent fields from being overrun with noxious plants by the scattering of their seeds from the fence rows.

ASHES AND SLOPS.—All the wood ashes made on the farm and all the slops of the weekly wash and all the refuse from the house, except such as food for hogs, should be added to the compost heap as being rich in all the elements that constitute the food of plants.

THE SPRING ELECTIONS.

Democrats are reminded of the importance of attending the Spring elections, so that bad men may be kept out of the boards of election officers and the assessorships, which are potent machines in the hands of unscrupulous politicians. The coming campaign will be one of unusual interest, as a Governor, Supreme Judge, and other important officers are to be chosen.

If the Democracy are to regain power, they must *organize* success. We must begin at the beginning. We must first win the fight for our local tickets, then for the State ticket, and then a national triumph will be easily secured. *Let this commencement be made now.* Let Democrats renew and reinvigorate their organization. Let none but the best men be nominated for office. Put forward the active, the zealous, the vigorous, as your standard-bearers. Reward the faithful and worthy. And then, with good men and true in the lead, call upon the people to follow.

The Spring elections will take place MARCH THE 19TH. On This day the radicals of this county will, also, hold their nominating election. *By this trick they hope to get out their entire vote* and thus to catch the Democrats napping. We say to our friends, Be on your guard! Turn out to the election, and do not permit the enemy to steal a march upon you.

CHEATED AT LAST.

There can be no doubt that many persons voted for U. S. Grant, because they believed him moderate and conservative, never dreaming that he would endorse so infamous a proposition as the Negro Amendment. He stood upon the Chicago platform, which assured the people that in "all the loyal States" the question of suffrage should be left to the control of the people. Hence it was fondly imagined by the credulous fools who could see nothing but Grant's shoulder-straps, that no attempt would be made by him to force Negro Suffrage upon those States. But they have been suddenly and rudely undeceived. Grant, in his Inaugural Address, recommends the ratification of the Negro Amendment, which not merely confers suffrage upon the blacks, *but takes away from the people the right to regulate and control the suffrage question for themselves.*

"Cheated at last!" was the exclamation of a Republican friend of ours, on reading Grant's Inaugural. Many and many a time had he insisted upon Grant's honesty and conservatism. Many and many a time had he stoutly asseverated that the charge that if Grant were elected, Negro Suffrage would be forced upon the country, was only "a copperhead lie!" Many and many a time had he pledged his honor to his Democratic friends to leave the Radical party and join hands with the Democracy, whenever the former would make a voter of the negro. That time came suddenly on the fourth of March. And now he admits that he has been cheated, and like an honest man, with his eyes open, he intends hereafter to vote the Democratic ticket and be cheated no more.

THE CABINET.

General Grant has appointed the following persons members of his cabinet. Their names were sent to the Senate on Friday last, and they were immediately confirmed:

Secretary of State—Elihu B. Washburne, of Illinois.
Secretary of the Treasury—Alex. T. Stewart, of New York.
Secretary of the Navy—Adolph E. Borie, of Philadelphia.
Secretary of the Interior—J. D. Cox, of Ohio.
Postmaster General—John A. J. Cresswell, of Baltimore.
Attorney General—E. B. Hoar, of Massachusetts.
General Schofield, Secretary of War in the cabinet of President Johnson, retains his position.

This announcement will fill the country with astonishment. There is not a member of this cabinet who has ever given any sign of ability or statesmanship, except Schofield. The inexperience and mediocrity of Grant are unrelieved by these oddly-assorted advisers, with whom he has surrounded himself. Had the names been promulgated one month ago, they would have sunk beneath the contemptuous criticism of the independent portion of the radical press, and Grant would have been compelled in deference to the clamors of his party to change his programme. It was dread of this, perhaps, that led him to keep the names of his cabinet ministers a profound secret to the last hour.

WHO lied, last fall, when it was asserted by the Democrats and denied by the Republicans, that if Grant were elected, Negro Suffrage would be forced upon the people without their consent? Grant's Inaugural proves that the Democrats told the truth. Now, where is the honest Republican that can longer act with that dishonest and deceitful party?

ENTER GRANT!

We publish the Inaugural Address of President Grant in another column of this issue.

It contains nothing new or startling. It gives the people no light upon the great questions of the day. It merely expresses promises, hope and wishes.

It assures us that the new President will have a policy on all subjects. It indicates, moreover, what such policy will be on some subjects.

It informs us that "every dollar of the public debt must be paid in gold, unless otherwise expressly stipulated in the contract." But it does not tell us when the debt is to be paid, nor where and how the gold is to be obtained to pay it.

It furnishes the people a new plan to get rid of bad laws, to wit: "The stringent execution of such laws."—Hence Grant will execute the Reconstruction Acts with the greatest possible vigor, so that they may be repealed at an early day. He will also rigidly enforce the Tenure-of-Office law for a similar reason.

It assures us that Providence "has bestowed upon us a strong box," which is to get us out of a bad box, provided we can only forge the key to it.

It gives us to know that the young men "have a peculiar interest in maintaining the national honor," an important fact which only U. S. Grant is presumed to have known prior to the delivery of his inaugural.

It endorses Negro Suffrage, repudiates the Chicago platform upon which its author was elected, and insults the people who voted for Grant and Colfax upon the express understanding that the question of suffrage in "the loyal States" was always to be left to the control of the people of those States. In this particular it proves Grant to be a demagogne, a double-dealing trickster and a base and cringing coward. He does not approve Negro Suffrage. He is well aware that the people know that he does not approve it. He does not say, in so many words, that he favors the ratification of the XVth amendment because it is intrinsically right. He only ventures to suggest that the amendment should be ratified in order to settle the suffrage question! That is, *adopt a vexatious proposition, no matter if it be never so wrong, in order to get rid of it!* Here is Grant-ism for you! The greatest scoundrel and the veriest ass in the land could treat any troublesome question just as honestly and intelligently.

If this is all that was wrapt up in the solemn and portentous silence of U. S. Grant, he might have opened his mouth long ago, without any danger of doing much harm or much good to anybody. As for ourselves, we are not disappointed. We never did have a very exalted opinion of Ulysses. As a general he was a miserable failure, except when preponderance of numbers gave him overwhelming advantage. As a candidate for office, he succeeded only through a gigantic fraud, which excluded half a million of white voters from the polls, enfranchised the ignorant and degraded ex-slaves of the South, and shut out three sovereign States from all participation in the election. The very fact that he accepts an office obtained in this manner, proves him a creature who lacks the high and noble qualities of a true, chivalrous and honest man. The trifling majority which elected him was made up of hero-worshipers and other fools. These still admire him, for the tinsel and brass are not quite rubbed off his coat. A little while longer, and the gloss and glitter will be stripped from his name, and the very men who are ready to-day to fall down and worship him, will discard him and deny that they ever knew him. Farewell, poor Grant! You are President now!

GOOD!

The radicals in the Indiana legislature undertaking to force the suffrage amendment through that body, *the democratic members of both Houses at once resigned!* This action of the democrats leaves the legislature without a quorum and defeats action upon the amendment. This will probably kill it. The democrats of the Indiana legislature are made of the right kind of material.

GRANT'S GIFT ENTERPRISE.—No gift enterprise in the country has ever paid as well as that of Grant. Stewart may be put down as one of the luckiest dealers who have ever invested in fancy stocks. He put in a share of a house and lot, and drew the whole Treasury. Borie headed a similar subscription, and drew the office of Secretary of the Navy. Washburne for three years toadying has been made Secretary of State. This beats Perham and the Crosby Opera House lottery all to smash.

GRANT'S Inaugural recommends the repeal of the Constitution of Pennsylvania which provides that only *white men* shall exercise the right of suffrage. And this repeal is not to be made by the people, but by the present miserable, rotten Legislature, elected without reference to any such question.

THE CURTAIN RISES.

The long agony is over. The new cabinet is announced.

The quiet mountain so long in labor, amid much smoke, has brought forth a litter of ridiculous mice.

Shades of Webster and Marcy and Cass, what a cabinet!

E. B. WASHBURNE, the refinement of stupidity, the butt of Donnelly, the laughing-stock of the whole country, Secretary of State!

A. T. STEWART, a New York haberdasher, who knows as much about the department of finance as a lap-dog does about the trail of a fox, Secretary of the Treasury!

ADOLPH E. BORIE,—who in the name of all the jack tars that ever reefed a sail is he?—Secretary of the Navy.

J. A. J. CRESSWELL, a Maryland politician, who made a secession speech in 1861, and afterwards purchased recognition from the radicals by swallowing his own vomit, Postmaster General!

J. D. COX, Ex-Governor of Ohio, not a bad sort of a man, but whose intellectual brilliancy will never set the Potomac afire, Secretary of the Interior!

E. B. HOARE, of Massachusetts, an eminent mediocrity, Attorney General!

Well!

We cannot do justice to the subject. Will not Col. M'Clure lend us a few adjectives? We shall have to wait till we can borrow some expletives from our radical friends. Meanwhile we are of the opinion that this cabinet is bound to sink Mr. Grant's ship, with its whole radical crew. The Great Eastern would go to the bottom with such a load as Washburne, Stewart, Borie, and Cresswell on board. Ulysses is in deep water, with rocks and shoals in his course, the wind veering round to blow right in his teeth, and with pilots totally ignorant and utterly regardless of that chart by which alone the ship of state can be steered in safety, the Federal Constitution. No wonder he asks "the prayers of the nation!"

GOLD for the Bond-holders, is Grant's doctrine. The public debt must be paid in gold. Well, if Mr. Grant can find the bullion to do it with, we have no objection, surely. But there is scarcely so great a fool outside of the lunatic asylum as thinks that specie enough can be obtained by the government in a hundred years to pay off the debt. Meanwhile, the Bond-holder gets his gold, but the rest of mankind must put up with greenbacks, and a limited quantity of those.

THE United States Senate, just at the close of the Fortieth Congress, confirmed John P. O'Neill, Esq., of Philadelphia, as United States District Attorney for the Eastern District of Pennsylvania. We know Mr. O'Neill to be a gentleman of culture, an able lawyer and a first rate democrat. President Johnson did himself credit and the country a service in the appointment of Mr. O'Neill.

REPUBLICANS OF BEDFORD COUNTY!—What think you of your President now? His very first act was to trample under foot your platform of last fall, by recommending the adoption of Negro Suffrage by the Legislature without referring the question 'o the people. That is honesty for you!

Vive L'Emperuer! Grant "hopes the people of the States will surrender their right to control the question of suffrage to the Federal Government. Nothing would please His Imperial Majesty better. Suffrage in the hands of the people never did suit military despots.

POOR GRANT! He is a doomed man! Better for him that he had quietly gone back to the Galena tan-vat than to have undertaken to swim the political Hellespont with the everlasting negro upon his back.

FACE THE MUSIC!—The radical Congress and the radical President Grant have declared for Negro Suffrage. The sneaks in Pennsylvania will have to face the music on this question at last.

WE always knew that Grant would get himself into a box when he became President, but we did not think him awkward enough to put his foot in it on the day of his inauguration.

GRANT has the audacity to "hope" and "wish" for the ratification of the Negro Suffrage amendment. What business is it of his whether the people ratify it or not?

THE radicals now have the President and both houses of Congress. Let them quit howling about the democracy, who are out of power, and attend to their own business.

The returns of the spring elections in all parts of the State of New York continue very favorable to the democrats. They have gained everywhere.

THE growls of the disappointed factions in the radical party are loud and deep. Grant is no longer, in their eyes, the "savior of the nation."

GRANT is after Uncle Sam's "strong box." Before he gets it he will go into one of a different sort.

MERCANTILE LIBRARY.

We received recently a draft of the new Mercantile Library building; and as we are a member of that institution, feel some interest in it. It contributes very materially to our improvement and pleasure. We can while away many hours among the mighty dead who yet speak from those silent shelves and open new fountains of thought and feeling. A public library is a public blessing. Among the pleasing features there is the *social*, as well as intellectual and literary. Thousands of ladies and gentlemen every week visit this place—idle in easy chairs, read everything from a ponderous tome to a daily paper, or pass the time in the chess room, if they admire the game and each other. But you must not forget that we are governed by law! And a law that takes so well: for no one is permitted to speak aloud—that is, you must *whisper*; and don't you see what a charm there is in that? Words sound sweeter and carry a different feeling with them when they glide into the ear in soft, low syllables. Or they used to when we were young. But I was going to tell you that we were having a new building on Tenth above Chestnut, and expect to get into it by summer. The main room will be the largest in the city, and the whole building taken entire in all its various apartments and improvements will be the best of the kind in this country. It will cost about a quarter of a million.

ACADEMY OF NATURAL SCIENCES.

After a pleasant chat, on Tuesday, with our friend J. R. of Bedford, at the Bingham, we hastened to fulfil an engagement for 1 P. M. In company with Messrs. G. and McC., of your place, we took a stroll through the Museum at the Medical Department of the University of Pa. It is a very fine one, and these young gentlemen enjoyed it very much; but as I had some regard for my appetite in anticipation of dinner at 5, I proposed getting out of that place as soon as convenient. Medical Museums are bad on appetites—except to Medical Students—and are more instructive to the head than agreeable to the other department. In consideration thereof we got out, having "done" that Institution in an hour, and wended our way to the Academy of Natural Sciences on Broad below Chestnut. A collection like that deserves a finer and larger building. Such a move, we understand, is now contemplated. The average number of visitors daily is about five hundred. Well, there are no *savans* in this country or Europe could successfully vie with us in "doing" a Scientific Institution, for by 4 P. M. we had rummaged the whole thing from toe to top, five stories in all, and didn't half try. We put through the snakes, birds, animals, skeletons, etc., in double quick, calling it a "cursory view," and expecting to take more time when we had it to spare. But it is a wonderful place and would richly repay a long visit. We concluded that any man who visits and studies what is collected in that building, and can come away and say there is no God, is, as the Psalmist says, a fool! We cannot leave, however, without speaking of one thing which interests us exceedingly, and that is

THE HADROSAURUS

or great herbivorous lizard, the skeleton of which was found in a bed of marl in Camden co., N. J., in 1858. It belongs to a remote age of the world, known to Geologists as the Cretaceous period. The skeleton, which however is not entire, measures 26 feet in length and stands on its hinder extremities and tail 13 feet high. It is supposed to have been amphibious, and to have browsed on trees for which its peculiar structure seems to have been adapted. its hinder extremities greatly exceeding in size the fore limbs; and the position necessarily to be assumed appearing to be that of the Kangaroo. It corresponds in length with the whale taken some time ago from the Delaware, the skeleton of which is also there. How would you get a reptile like that in St. Patrick's box? On our way back, we dropped into an Art Gallery on Chestnut street for a short time, and enjoyed some charming pictures, after which we took seats and enjoyed, before parting, a nice little gossip as the men only know how to get up—on short notice. Our sheet is full and our pen empty. Entirely, &c.,

INAUGURAL ADDRESS OF PRESIDENT GRANT.

WASHINGTON, March, 4.

The following is the inaugural address of Generai Grant:

Citizens of the United States: Your suffrage having elevated me to the office of President of the United States, I have in conformity with the constitution of our country, taken the oath of office prescribed therein. I have taken this oath without mental reservation and with the determination to do to the best of my ability all that it requires of me. The responsibilities of the position I feel, but accept them without fear. The office has come to me unsought. I commence its duties untrammeled. I bring to it a conscientious desire and determination to fill it to the best of my ability and to the satisfaction of the people on all leading questions agitating the public mind. I will always express my views to Congress and urge them according to my judgment, and when I think it advisable will exercise the constitutional privilege of interposing a veto to defeat its measures which I oppose, but all laws will be faithfully executed, whether they meet my approval or not. I shall on all subjects have a policy to recommend, but none to enforce against the will of the people. Laws are to govern all alike—those opposed to as well as those who favor them. I know no method to secure the repeal of bad or obnoxious laws so effectively as their stringent execution. The country having just emerged from a great rebellion, many questions will come up before it for settlement in the next four years which preceding administrations have never had to deal with. In meeting these, it is desirable that they should be approached calmly, without predjudice, hate or sectional pride, remembering that the greatest good to the greatest number is the object to be attained. This requires security of person, property and religious and political opinion in every part of our common country, without regard to local predjudices. All laws to secure these ends will receive my best efforts to secure enforcement.

A great debt has been contracted in securing to us and our posterity the Union. The payment of this debt, principal and interest, as well as the return to a specie basis as soon as it can be accomplished without national detriment to the debtor class of the country at large, must be provided for. To protect the national honor every dollar of Government indebtedness should be paid in gold unless otherwise expressly stipulated in the contract. Let it be understood that no repudiator of one farthing of our public debt will be trusted in a public place, and it will go far towards strengthening a credit which ought to be the best in the world, and will ultimately enable us to replace the debt with bond-bearing less interest than we now pay. To this should be added a faithful collection of the revenue, a strict accountability to the Treasury for every dollar collected and the greatest practicable retrenchment in expenditure in every department of the government. When we compare the paying capacity of the country now, with ten States still in poverty, from the effects of war, but soon to emerge, I trust, into greater prosperity than ever before, with its paying capacity twenty-five years ago, and calculate what it probably will be twenty-five years hence, who can doubt the feasibility of paying every dollar then with more ease than we now pay for useless luxuries. Why, it looks as though Providence had bestowed upon us a strong box. The precious metals locked up in the sterile mountains of the far west, which we are now forging the key to unlock, meet the very contingency that is now before us. Ultimately it may be necessary to increase the facilities to reach these riches, and it may be necessary also that the general government should give its aid to secure this access, but that should only be when a dollar of obligation to pay secures precisely the same sort of dollar to use now, and not before. Whilst the question of specie payments is in abeyance the prudent business man is careful about contracting debts payable in the distant future. The nation should follow the same rule. A prostrate commerce is to be rebuilt and all industries encouraged. The young men of the country—those who from their age must be its rulers twenty-five years hence—have a peculiar interest in maintaining the national honor. A moments reflection as to what will be our commanding influence among the nations of the earth, in this day, if they are only true to themselves, should inspire them with national pride. All divisions, geographical, political and religious, can join in this common sentiment. How the public debt is to be paid or specie payments resumed is not so important as that a plan should be adopted and acquired. In a united determination to do is worth more than divided councils upon the method of doing. Legislation upon this may not be necessary now, even advisable, but it will be when the civil law is more fully restored in all parts of the country, and trade resumes its wonted channels. It will be my endeavor to execute laws in good faith; to collect revenues assessed and to have them properly accounted for and economically disbursed. I will, to the best of my ability, appoint to offices those only who will carry out this design.

In regard to foreign policy I would deal with nations as equitable law requires individuals to deal with each other, and I would protect the law abiding citizen whether a native or of foreign birth, wherever his rights are jeopardized or the flag of our country floats. I would respect the rights of our own. If others depart from this rule in their dealings with us, we may be compelled to follow their precedent.

The proper treatment of the original occupant of this land, the Indian, is one deserving of careful study. I will favor any course towards them which tends to their civilization, christianization and ultimate citizenship.

The question of suffrage is one which is likely to agitate the public so long as a portion of the citizens of the nation are excluded from its privileges in any way. It seems to me very desirable that this question should be settled now, and I entertain the hope and express the desire that it may be by the ratification of the 15th article of the amendment to the Constitution.

In conclusion, I ask the patient forbearance of one towards another throughout the land, and a determined effort on the part of every citizen to do his share towards cementing a happy Union, and I ask the prayers of the nation to Almighty God in behalf of this consummation.

A highly intelligent lady, a resident of Syracuse, N. Y., says that she was afflicted nearly a year, periodically, with derangement of the circulation, the blood rushing to the lungs with such force as to threaten congestion and death. This was attended with the most intense pain in all parts of the body. Failing to obtain relief from any of the physicians whom she employed from time to time, she was induced to try Plantation Bitters, and to her surprise and joy they have relieved her, and she is now in good health and flesh,

I want to rouse each sleepy head,
Who stand upon the brink,
Where yawning gulfs disclose the dead,
Who might, but did not, think.
I want to warn the living ones
Who blindly grope along,
Ye fathers, daughters, mothers, sons,
What perils round you throng!
Look out, my reader, are you free,
Or do you wear the mark?
Most all are blind and cannot see,
Yea, groping in the dark.
Catarrh, a demon in the head,
Consumption is its son;
Kills hosts, yea, countless millions, dead,
Perhaps you may be one.
That hacking, hawking, spitting, shows,
Catarrh effects your head;
Matter and slime in throat or nose,
Runs down your throat instead.
Your lungs and liver soon will show,
Consumption has its birth;
Catarrh, its sire, will feed it too,
'Till you return to earth.
If colds affect your head and throat,
ANNIHILATOR buy;
Now don't forget what I have wrote,
Or think this subject dry.
WOLCOTT'S ANNIHILATOR cures
Catarrh—the demon flies;
It saves the *lungs*, good health insures,
And Catarrh quickly dies.
I want to gratify my friends,
Who wish to understand
About PAIN PAINT, its use, its ends,
And why its great demand.
I want to show you, plain as day,
Why PAIN PAINT stops all pain,
That you may never have to say
"I'll not try paint again."
PAIN PAINT will cool but never stain;
Pumps inflammation out;
'Tis harmless on the breast or brain,
A trial stops all doubt.
When inflammation leaves the frame,
All pain will cease at once;
Remove the cause, 'tis all the same;
None doubts unless a dunce.
The pores will ope and drink PAIN PAINT
Absorbents fill with ease;
Restores the weak, the sick, the faint,
The greatest skeptic please
Evaporation cools the place
As inflammation flies;
Hot blood at the absorbent's base
Makes PAINT in vapor rise.
'Tis thus PAIN PAINT removes all doubt,
Removes the very cause
By pumping inflammation out;
On this we rest our cause.

Wolcott's Pain Paint is sold at all Drug Stores; also, Wolcott's Annihilator, for the cure of Catarrh and Colds in the head. Sent by express on receipt of the money, at 181 Chatham Square, N. N. R. L. Wolcott, Prop. feb26tw

The Messrs. Shuck have greatly improved the front of the store room in which our friend, R. W. Berkstresser, holds forth.

A man well posted on agriculture informs us that in most localities the ice crop has not been injured much by the frost.

Madame Demorest says—and she ought to know—that there is very little difference between the fashions for March, and the fashions of February.

A patent for a snoring preventive has been applied for. It consists in the application of a common clothespin to the nose.

Democrats! Keep your eyes "tight open" for the Spring election, on Friday the 19th inst., as it will be the preliminary battle of our canvass for Governor.

Store, shop and saloon keepers hereabouts are all complaining of dullness in trade. Scarcity of stamps and an approaching April, are the conceded cause.

Many mean, miserly men may mouse around here; but they can't come up to one at Pittsburg, who charged four dollars for loss of time in attending his brother's funeral.

Hon. C. L. Pershing of Johnstown has been officially requested to pronounce the oration at the next commencement of Jefferson and Washington College.

They had a war of races in Hollidaysburg a few days ago. It was a general "pitch in" between some whites and blacks. One colored man has since died of injuries received.

W. Maclay Hall's letter to W. Maclay Hall, and W. Maclay Hall's answer W. Maclay Hall's letter can be seen in last week's Bedford County *Press*. The correspondence is mutually interesting to both.

Two young men of this county, were placed in "durance vile" the other day, accused of stealing pork. They might have "saved their bacon" by letting that of their neighbors alone.

The Blair county Radicals voted on the "Crawford County System" last week. It was carried by a majority of 108 votes. Several districts, including the city of Altoona, refused to vote upon the question.

On the second page of our paper will be found another interesting letter from our Philadelphia correspondent. "Linden" promises to treat our readers often with his spicy communications, and we know he'll do it. So, look out for them, kind readers.

A lady told us, the other day, that she had thought "Captain Jenks of the Horse Marines" a very pretty thing, till she heard it the two thousandth time. She is now disgusted with it.—No wonder. She is now anxious to hear "*Mistress* Jenks of Madison Square."

The hog nuisance needs abating in this Borough. We learn of a number of gardens that have been almost entirely ruined by these grunters being permitted to run at large. Pen up your hogs, or they may come home with their "tails cut off close to their ears." *Versteh?*

March seems determined to keep up the reputation of being a stormy month. The wind whistles wildly round our ears, making frail humanity, and in fact, frail structures of every description, tremble. According to the old theory, if March comes in like a roaring lion, she'll go out calm as a calf.

NEW CHURCHES.—Last Wednesday, at a meeting of the members of the Reformed congregation of Fishertown, they resolved to build a new church at that place.

On last Friday at a similar meeting held at St. Clairsville, a resolution was passed to build a new Reformed church near the old Union church.

There are also efforts being made to build a Lutheran church in Union tp., on the lands of Moses Goughenour.

The best place to buy boots and shoes, is at the Regulator's, No. 2 Anderson's Row—also queensware, groceries, notions, &c., together with an assortment of nice things not necessary to mention.

CANARY BIRDS, (good singers) cages, seeds, &c., for sale at Heckerman's drug store.

THE RAILROAD.—We cannot urge too strongly the importance of speedy action upon a subject so vital so the interests of this community. All around us the country is grid-ironed by railroads, followed by enterprise and improvements, while we are left to linger in the slow old method of an age gone by. We have nobody to blame but ourselves. It is said that Providence only helps those who help themselves. Let us show by our material aid in the shape of handsome subscriptions, that we are in earnest in this matter and the road will be built beyond a question. A number of our citizens have subscribed liberally. Let others do likewise, and the work will go on.

FIRE COMPANY.—At last we are to have something tangible in the shape of a Fire Company in this town. The young men have taken hold of the matter. On last Monday evening a meeting was held in the Grand Jury room, and the Vigilance Fire Company was brought into existence by the election of H. J. King as President, J. A. Nicodemus, Vice President, J. N. Alsip, Secretary and J. E. Smith, Treasurer. Subsequent meetings will be held to perfect the organization of the company. The young men at the head of this movement are determined that the thing shall be a success, and we hope ere long to be able to chronicle the fact that we have an efficient fire company in Bedford.

THE LATEST FASHIONS.—March first was "opening day" in New York with the Milliners and *modistes* and the various establishments are thronged accordingly with fashionable fair ones in pursuit of new styles, &c. The bonnet of the coming season, it seems, is to be smaller than the one now in vogue, with little trimming at the sides, and no strings. A new style of round hat is called the Roseland. It is made of fancy straw without a brim, high in the centre with a loop of green satin on one side, and white lace, edged with green satin ribbon, falling at the back. Prices take a wide range, say all the way from $10 to $45. Small capes are to be the prevailing style. Black silk sacques for street wear are loosly fitting in the back, extending a little below the belt; the front is a trifle deeper, while it is narrow on the shoulders and open under the arm, being joined by the belt. The trimming is of satin folds and black lace edging.

BEDFORD RAIL ROAD.—The undersigned committee, appointed to obtain subscriptions, have done up to this time, what they deemed best to accomplish their work. Some citizens have done their duty; some have half done it, and others have not done it at all. Upon this latter class particularly, the responsibility rests of defeating, what they all acknowledge to be, our only help as a thriving community. No more persuasion is to be made use of with those who ought, at once, to embrace the only opportunity, perhaps, they will ever have, of making their own neighborhood what it ought to be. The grading and bridging will not cost above $70,000.00, as ascertained by actual survey and calculation. One half of this sum can be easily raised by the people of Bedford. If this is done, the other half can be raised outside of Bedford, and the road put under contract this coming spring. The committee are no more interested in this than any other individuals. The books are still open at the Prothonotary's office, and it remains to be seen whether our citizens will allow our town and vicinity to become dried up, and the Bedford Springs get to be *nowhere*, or, whether we shall rival Altoona and Saratoga. Upon our own people, at this particular time, these things depend.

The undersigned has just received from the East a large and varied stock of New Goods, which are now open for examination, at
MILL-T

Sewing Machines.

$25! $25!

THE

AMERICAN SHUTTLE

SEWING MACHINE!

Is retailed at a price within the reach of all. This Machine uses a straight needle, makes the LOCK STITCH (alike on both sides), has a self-adjusting tension, and can do every variety of sewing. It will hem, fell, bind, cord, braid, seam, built, tuck, ruffle, and gather; and will work equally well on silk, linen, woolen, or cotton goods, with silk, linen, or cotton thread.

THE

AMERICAN SHUTTLE SEWING MACHINE

—IS—

Warranted for Five Years!

Our Agents will be supplied with duplicate parts of the Machine, in case of accident. It makes precisely the same stitch made by the Singer, Wheeler & Wilson, Howe, and Florence Machines. It has the Under-feed, like the best of high-priced Machines, and is the only low-priced Shuttle Machine in the market that has this feed. We are enabled to sell a first-class SHUTTLE MACHINE at a very low price, on account of its Simplicity, and consequent low cost of Manufacturing, in comparison with Complicated Machines.

AGENTS.

We wish to arrange with Agents, male or female, to represent the American Shuttle Sewing Machine, in each State, County, and Town in the United States and Ontario. Extra inducements to Experienced Agents. For full particulars, as to Salary or Commission, address

G. V. N. ANDREWS,
General Ag't,
Detroit, Mich.

N. B.—For the benefit of our Agents we have arranged with parties who have goods suitable for Sowing Machine Agents to sell. We will send BOOK OF SAMPLES and full particulars on receipt of one red stamp. Address G. V. N. ANDREWS, General Agent, Detroit, Mich. nov6y1

OUR NEW
FAMILY
SEWING MACHINE.

The superior merits of the "Singer" Machines over all others, for either Family use or Manufacturing purposes, are so well established and so generally admitted, that an enumeration of their relative excellences is no longer considered necessary.

OUR NEW FAMILY MACHINE,

which has been brought to perfection regardless of time, labor, or expense, is now confidently presented to the public as incomparably the Best Sewing Machine in existence. The machine in question is Simple, Compact, Durable and Beautiful. It is quiet, light running, and

CAPABLE OF PERFORMING A RANGE AND VARIETY OF WORK

never before attempted upon a single Machine,—using either SILK, TWIST, LINEN OR COTTON THREAD, and sewing with equal facility the very finest and coarsest materials, and anything between the two extremes, in the most beautiful and substantial manner. Its attachments for Hemming, Braiding, Cording, Tucking, Quilting, Felling, Trimming, Binding, etc., are Novel and Practical, and have been invented and adjusted especially for this Machine.

New designs of the Unique, Useful, and Popular Folding Tops and Cabinet Cases, peculiar to the Machines manufactured by this Company, have been prepared for enclosing the new Machine.

A faint idea, however, can at best be conveyed through the medium of a (necessarily) limited advertisement; and we therefore urge every person in quest of a Sewing Machine, by all means to examine and test it—if they can possibly do so, all the leading rival Machines before making a purchase. A selection can then be made understandingly. Branches or agencies for supplying the "Singer" Machines will be found in nearly every city and town throughout the civilized world, where Machines will be cheerfully exhibited, and any information promptly furnished. Or communications may be addressed to

NATURE'S GREAT RESTORER.

SCHEETZ'S
CELEBRATED
BITTER CORDIAL.

This medical preparation is now offered to the public as a reliable substitute for the many worthless compounds which now flood the market. It is purely vegetable, composed of various herbs, gathered from the great storehouse of nature, and selected with the utmost care. It is not recommended as a CURE ALL, but by its direct and salutary influence upon the Heart, Liver, Kidneys, Lungs, Stomach and Bowels, it acts both as a preventive and cure for many of the diseases to which those organs are subject. It is a reliable Family Medicine, and can be taken by either infant or adult with the same beneficial results It is a certain, prompt and speedy remedy for DIARRHŒA, DYSENTERY, BOWEL COMPLAINT, DYSPEPSIA, LOWNESS OF SPIRITS, FAINTINGS, SICK-HEADACHE, &c. For Chills and Fevers of all kinds, it is far better and safer than quinine, without any of its pernicious effects. It creates an appetite, proves a powerful digester of food, and will counteract the effects of liquor in a few minutes.

THE GREAT

ZINGARI BITTERS.

A Safe Blood Purifier,

A Splendid Tonic,

A Pleasant Beverage,

A CERTAIN CURE

AND

PREVENTIVE OF DISEASES.

The ZINGARI BITTERS are compounded from a prescription of the celebrated Egyptian physician DR. CHEOPSUS, who, after years of trial and experiment, discovered the Zingari Herb—the most remarkable vegetable production, the earth, perhaps, has ever yielded—certainly the most effective in the cure of disease. It, in combination with the other valuable properties of which the Zingari Bitters is composed, will cure

Dyspepsia, Fever and Ague, Bilious Fever, Chills, Colds, Bronchitis, Consumption in its first stage, Flatulency, Nervous Debility, Female Complaints, Rheumatism, Dysentery, Acute and Chronic Diarrhœa, Cholera Morbus, Cholera, Typhoid and Typhus Fever, Yellow Fever, Scrofula, Diseases of the Kidneys, Habitual Costiveness &c., &c.

In the PREVENTION and CURE of the above diseases, it has never been known to fail, as thousands of our most prominent citizens throughout all parts of the country will testify. Let the afflicted send for circular containing testimonials and certificates of those who have been cured after their cases have been pronounced hopeless by our best physicians.

AYER'S
HAIR VIGOR,
FOR THE RENOVATION OF THE HAIR.

THE GREAT DESIDERATUM OF THE AGE.

A dressing which is at once agreeable, healthy, and effectual for preserving the hair. Faded or gray hair is soon restored to its original color and the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted merely for a

HAIR DRESSING,

nothing else can be found so desirable. Containing neither oil nor dye, it does not soil white cambric, and yet lasts longer on the hair, giving it a rich glossy lustre and a grateful perfume.

AYER'S CATHARTIC PILLS,

For all the purposes of a Laxative Medicine.

Perhaps no one Medicine is so universally required by everybody as a cathartic, nor was ever any before so universally adopted into use, in every country and among all classes, as this mild but efficient purgative Pill. The obvious reason is, that it is a more reliable and far more effectual remedy than any other. Those who have tried it, know that it cured them; those who have not, know that it cures their neighbors and friends, and all know that what it does once it does always—that it never fails through any fault or neglect of its composition We have thousands upon thousands of certificates of their remarkable cures of the following complaints, but such cures are known in every neighborhood, and we need not publish them. Adapted to all ages and conditions in all climates; containing neither calomel or any deleterious drug, they may be taken with safety by anybody. Their sugar coating preserves them ever fresh and makes them pleasant to take, while being purely vegetable no harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

FOR DYSPEPSIA or INDIGESTION, LISTLESSNESS, LANGUOR and LOSS of Appetite, they should be taken moderately to stimulate the stomach and restore its healthy tone and action.

FOR LIVER COMPLAINT and its various symptoms, BILLIOUS HEADACHE, SICK HEADACHE, JAUNDICE or Green SICKNESS, Bilious Colic and Bilious Fevers, they should be judiciously taken for each case, to correct the diseased action or remove the obstructions which cause it.

FOR DYSENTERY or DIARRHŒA, but one mild dose is generally required.

FOR RHEUMATISM, GOUT, GRAVEL, PALPITATION OF THE HEART, PAIN IN THE SIDE, BACK and LOINS, they should be continuously taken, as required, to change the diseased action of the system. With such change those complaints disappear.

FOR DROPSY and DROPSICAL SWELLINGS they should be taken in large and frequent doses to produce the effect of a drastic purge.

FOR SUPPRESSION a large dose should be taken as it produces the desired effect by sympathy.

As a DINNER PILL, take one or two pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and bowels into healthy action, restores the appetite, and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who feels tolerably well, often finds that a dose of these PILLS makes him feel decidedly better, from their cleansing and renovating effect on the digestive apparatus.

Our friends will find at Mr. Waters' store the very best assortment of Pianos, Melodeons and Organs to be found in the United States.—*Graham's Magazine.*

MUSICAL DOINGS.—Since Mr. Waters gave up publishing sheet music, he has devoted his whole capital and attention to the manufacture and sale of Pianos and Melodeons. He has just issued a catalogue of his new instruments, giving a new scale of prices, which shows a marked reduction from former rates, and his Pianos have recently been awarded the First Premium at several Fairs. Many people of the present day, who are attracted, if not confused, with the flaming adeertisements of rival piano houses, probably overlook the modest manufacturer like Mr. Waters; but we happen to know that his instruments earned him a good reputation long before Expositions and "honors" connected therewith were ever thought of; indeed, we have one of Mr. Waters' Pianofortes now in our residence (where it has stood for many years,) of which any manufacturer in the world might well be proud. We have always been delighted with it as a sweet-toned and powerful instrument, and there is no doubt of its durability; more than this, some of the best amateur players in the city, as well as several celebrated pianists, have performed on the same piano, and all pronounce it a superior and first-class instrument. Stronger endorsement we could not give.—*Home Journal.* jan15,'69.

AYER'S SARSAPARILLA,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofula, or poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develops into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this Sarsaparilla is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this Sarsaparilla: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears, and other eruptions or visible forms of Scrofulous disease. Also in the more concealed forms, as Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia, and the various Ulcerous affections of the muscular and nervous systems.

Syphilis or Venereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhœa or Whites, Uterine Ulcerations and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. Rheumatism and Gout, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Inflammation of the Liver, and Jaundice, when arising, as they often do, from the rankling poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listless, Despondent, Sleepless, and troubled with Nervous Apprehensions or Fears, or any of the affections symptomatic of Weakness, will find immediate relief and convincing evidence of its restorative power upon trial.

Miscellaneous.

AYER'S CHERRY PECTORAL,
For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

Probably never before in the whole history of medicine, has anything won so widely and so deeply upon the confidence of mankind, as this excellent remedy for pulmonary complaints. Through a long series of years, and among most of the races of men it has risen higher and higher in their estimation, as it has become better known. Its uniform character and power to cure the various affections of the lungs and throat, have made it known as a reliable protector against them. While adapted to milder forms of disease and to young children, it is at the same time the most effectual remedy that can be given for incipient consumption, and the dangerous affections of the throat and lungs. As a provision against sudden attacks of Croup, it should be kept on hand in every family, and indeed as all are sometime subject to colds and coughs, all should be provided with this antidote for them.

Although settled Consumption is thought incurable, still great numbers of cases where the disease seemed settled, have been completely cured, and the patient restored to sound health by the Cherry Pectoral. So complete is its mastery over the disorders of the Lungs and Throat, that the most obstinate of them yield to it. When nothing else could reach them, under the Cherry Pectoral they subside and disappear.

Singers and public Speakers find great protection from it.

Asthma is always relieved and often wholly cured by it.

Bronchitis is generally cured by taking the Cherry Pectoral in small and frequent doses.

So generally are its virtues known that we need not publish the certificates of them here, or do more than assure the public that its qualities are fully maintained.

AYER'S AGUE CURE,
For Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Dumb Ague, Chilloidal or Bilious Fever, &c., and indeed for the affections which arise from malarious, marsh, or miasmatic poisons.

As its name implies it does Cure, and does not fail. Containing neither Arsenic, Quinine, Bismuth, Zinc, nor any other mineral or poisonous substance whatever, it in no wise injures any patient. The number and importance of its cures in the ague districts, are literally beyond account, and we believe without a parallel in the history of Ague medicine. Our pride is gratified by the acknowledgments we receive of the radical cures effected in obstinate cases, and where other remedies had wholly failed.

Unacclimated persons, either resident in, or traveling through miasmatic localities, will be protected by taking the AGUE CURE daily.

For Liver Complaints, arising from torpidity of the Liver, it is an excellent remedy, stimulating the Liver into healthy activity.

For Bilious Disorders and Liver Complaints, it is an excellent remedy, producing many truly remarkable cures, where other medicines had failed.

Prepared by DR. J. C. AYER & Co., Practical and Analytical Chemists, Lowell, Mass., and sold all round the world.
